# BIDs in Hamburg

### Regulations for BIDs in Hamburg

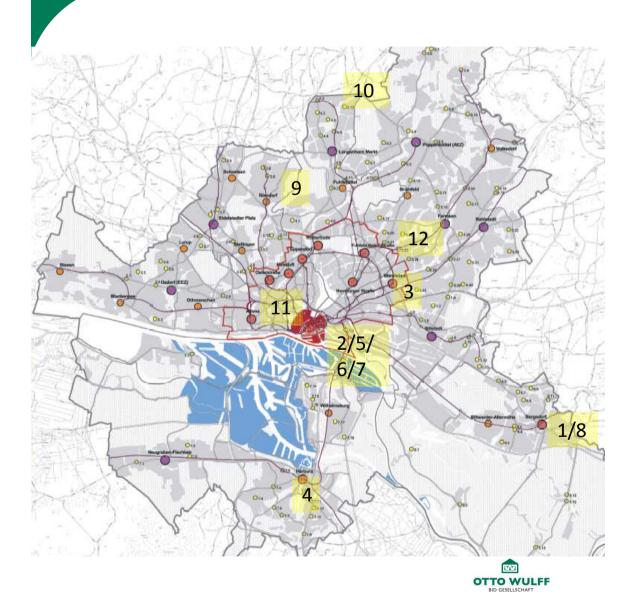

BIDs are legally specified in German state law since 2005
BIDs are based on the common initiative of the property owners
BIDs are privately financed
A BID is established for max 5 years

Most important requirements:

- a measure- and financing concept is mandatory
- an elected service provider as a responsible body has to hand in the request of the establishment of a BID
- ■15% of the property owners have to accept the request in advance
- the application papers have to be displayed publicly for a month, all property owners have to be informed
- the BID won't be established if more then 1/3rd of the property owners object the request
- •the BID is financed by a municipal fee/ levy which is payed by every property

# BIDs take care for their investmens and provide service and maintenance

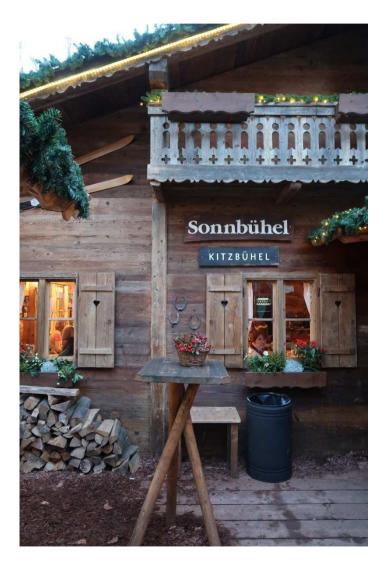

# BIDs celebrate the city

### BIDs create stable networks

# OTTO WULFF BID GESELLSCHAFT BIDs communicate

## BIDs communicate | Pedestrian frequency

#### PASSANTENFREQUENZZÄHLUNG AM GÄNSEMARKT

Die Passantenfrequenzzählung am Gänsemarkt wird durch jeweils einen Laserscanner der Firma Lase in der Gerhofstraße und der Poststraße durchgeführt. Die Laserscanner sind in einer Höhe ca. 20 Metern angebracht und erfassen (im Falle der Postsraße beide Straßenseiten) beide Laufrichtungen auf ieder Straßenseite

Das ideale Erfassen der Passantenzahlen kann so gewährleistet werden.

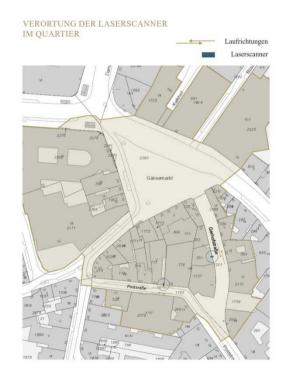

Personen ab einer Größe von 80 cm werden vom Laserscanner erfasst. Die Daten werden unmittelbar verarbeitet und online über einen gesicherten Webzugang zur Verfügung gestellt.

In der nebenstehenden Grafik können Sie den genauen Standort der Lasergeräte entnehmen.

Informationen zum Laserscanner

Abmessungen (L x B x H): 247 x 121 x 109 mm

Gewicht: 2,6 kg
Installationshöhe: ca. 20 Meter
Zählgenauigkeit: 98%

#### BIDs represent interests

- Optimization concept of the urban delivery system
- General framework for events and gastronomy
- Basic conditions for adverstising measures
- Guidelines for construction site facilities
- Implementation of joint concepts (eg. common supply and waste management)
- Cultural and gastronomic offers for customers and residents

### ...and rely on the "key actors"

- ... shoulder responsibilities
- ... motivate others for collaboration
- •... tough out their ideas and their goals
- •... work the most
- ... are willing to compromise in detailed questions
- ... are perfectly connected on a local base
- ... are involved in other projects
- ... are accepted and well known in the district

# Thank you
