

## LC DISTRICTS Online Study Visit in Croatia

Monday, March 29th, 2020

Web conference via MS TEAMS

North West Croatia Regional Energy Agency (REGEA) organizes the online study visit as the part of the LC DISTRICTS project (“Towards low carbon city districts through the improvement of regional policies”) supported from the Interreg Europe Programme.

The aim of the online study visit is to present successful practices and projects which has made contribution to the achievement of local, regional and national energy and climate goals. You will have the opportunity to discuss about project activities with project partners from Sweden, Spain, the Czech Republic, Italy, and Croatia. Main topics will be related to district heating systems, greening the urban planning and connection towards the Operational programmes development. Please feel free to share information about the study visit programme.
