- Wine tourism.
- Guided tour of the vineyard and winery with a wine tasting for groups only.
- Sale of wines.

This is followed by a visit to the old winery, which has been converted into a historic museum and contemporary art space owned by the Otazu Foundation. The tour continues with a visit to the new installations at the winery, including the impressive underground barrel room. The tour concludes with a guided tasting of three wines, each paired with a carefully chosen pintxo snack.

● Have a go yourself at being an oenologist.

This includes a full tour of the winery, starting at the historic 12th century Señorío de Otazu manor house. On the way to the winery, the guide will explain the particular features of our vineyard before continuing the tour in our production room, bottling facility and barrel room, known as the “Cathedral to Wine”. This tour lets you familiarise yourself with all the stages needed to transform grapes into a great wine. With the help of our technical team, we play with different blends in order to understand what each grape variety brings to the mix until eventually obtaining the wine we want, designed by the “new oenologists”.
